

# DEVELOPING A CHATBOT

## Building Chatbot And Integrate To Application

TEAM ID	PNT2022TMID30524
PROJECT NAME	Nutrition Assistant Application

### Building a Chatbot:

The screenshot displays the IBM Watson Assistant Lite web interface. The browser address bar shows the URL: `us-south.assistant.watson.cloud.ibm.com/cm%3Av1%3Abluemix%3Apublic%3Aconversation%3Aus-south%3Aa%2F9ceab55aa9d8498abade4ea6d20f9664%3A6e9...`. The interface includes a top navigation bar with 'IBM Watson Assistant Lite', 'Upgrade', 'Fashion Bot', and a 'Learning center' link. The main workspace is divided into two panels. The left panel, titled 'Hello', shows a list of steps in a workflow. Step 5 is 'Appointment details' with the text 'You can make appointment by contacting this number 04257xxxxxx'. Step 8 is 'Parking facility' with the text 'Yes, this hospital has parking facility'. Step 9 is 'Bed Availability' with the text 'Today 50 beds available. Thank you'. Step 10 is 'Action complete'. The right panel shows the 'Assistant says' section with the text 'Today 50 beds available. Thank you'. Below this is the 'Define customer response' section. The 'And then' section shows 'End the action'. A 'Preview' button is located at the bottom right of the workspace. The bottom of the screen shows a Windows taskbar with various application icons and a system tray displaying '29°C Cloudy', 'ENG IN', and the date '19-10-2022'.

# Chatbot Integration:

```
File Edit Selection View Go Run Terminal Help Search
C: > Users > sowmi > Desktop > bot.html > script
1 <script>
2 window.watsonAssistantChatOptions = {
3   integrationID: "14b83b8f-3dfd-405f-9520-b550092892aa", // The ID of this integration. region: "us-south", // The
4   serviceInstanceID: "6e95bee9-8d0b-49f6-8a2f-4125fb3a7945", // The ID of your service instance. onLoad: function(i
5 };
6 setTimeout(function(){
7   const t=document.createElement('script');
8   t.src="https://web-chat.global.assistant.watson.appdomain.cloud/versions/" + (window.watsonAssistantChatOptions.c
9   document.head.appendChild(t);
10 });
11 </script>
12
13
```
